

VEHICLES & VANS CAMPING

We are using **public parking areas** that make it possible to park near the venue. We rely on the goodwill and tolerance of local residents in order to continue using these spaces in the future as camping in public parking places is not allowed.

Therefore, we kindly ask you to **be respectful** toward the local community, the surrounding area, and noise levels. Please keep all camping-related activities (no tables, chairs, awnings, etc.) within the festival grounds and not in the parking areas. *The use of the public areas is **self-responsible**.*

Vehicles are prohibited from entering **the green areas of the park** or campground.

In case you have space in your van, please review this Google Spreadsheet to **offer or find a ride-sharing partner**: [google spread sheet for ride sharing](#)

*If you are planning to bring your van, **please let us know**.*

Street parking is available free of charge on a first-come, first-served basis, shared with local residents, and cannot be reserved.

Another nearby public parking is available at the **Markuskirche**, they will be utilized on Sunday.
